INDIAN INSTITUTE OF TECHNOLOGY MADRAS

VISION

To be an academic institution in dynamic equilibrium with its social, ecological and economic environment striving continuously for excellence in education, research and technological service to the nation.

MISSION

To create and sustain a community of learning in which students acquire knowledge and learn to apply it professionally with due consideration for ethical, ecological and economic issues.

To pursue research and disseminate research findings.

To provide knowledge based technological services to satisfy the needs of society and industry.

To help in building national capabilities in science, technology, humanities, management, education and research.

QUALITY POLICY

To pursue global standards of excellence in all our endeavours namely teaching, research, consultancy and continuing education and to remain accountable in our core and support functions through processes of self evaluation and continuous improvement.

CORE VALUES

Develop human resources to serve the nation, recognition of teaching as a unifying activity, Nurture integrity, creativity and academic freedom. Retain a willingness to experiment with new paradigms.

Prof. V. Kamakoti

Director

Telephone Directory

Indian Institute of Technology Madras 2024

1 Introduction

To reach IITM telephone extensions from outside, the caller has to dial with a prefix: +91 44 2257 XXXX where XXXX is the PABX number.

For residential PABX lines (wherever provided):

- Replace 8XXX with 9XXX
- Replace 4XXX with 6XXX

If residential line is not provided, "number not available" message will be heard.

The telephone extension on the IITM EPABX belongs to one of the following categories:

- Class 5 can dial to and receive calls only from other extensions
- Class 4 can also receive external calls from outside IITM, cannot make external calls
- Class 3 can also make / receive external calls
- Class 2 can also make STD calls
- Class 1 can also make ISD and STD calls

Facilities provided:

- 0 Direct city dialing
- 00/000 STD/ISD dialing
- 2 Auto call back
- 2 Call pick up
- 3 To call operator
- 5 Call splitting
- 70 Call forward registration (Press # after extension)
- 71 Call forward cancellation
- 72 Add on conference
- 78 Local / STD locking
- 79 Local / STD lock release

Features available:

- **Call Transfer** To transfer a call, dial the required extension after hook flash and disconnect after answering. Now the call is transferred.
- **Call Splitting** One can switch alternately between two parties, while conversing, using call splitting. When you are connected to A, establish a call to B by call transfer. However, instead of disconnecting, now dial 5 after hook flash to switch back to A. You can switch to B by dialing 5 after hook flash.
- **Add on conference** Three party conference calls can be made by using this facility. During conversation between two parties, a third party can be included in the conversation, by first establishing a call with the third party as in call transfer. However, instead of disconnecting, dial conference code 72 after hook flash. Now three parties can converse with each other.
- **Call Forward Registration** To forward all incoming calls to another extension, dial 70 and then the required extension to be forwarded to, followed by # key. Wait for confirmation tone before replacing the handset.

- **Call Forward Cancellation** To cancel the call-forward registration, dial 71. Wait for confirmation tone before replacing the handset.
- **Call pick up** A number of extensions can be grouped together in a single group on request. When a phone rings at any one extension, any other extension in the group can answer the call by picking up by dialing 2. Contact telephone exchange to create a group.
- **Local / STD Locking** If one wants to lock Local / STD, one can dial 78 and then the 4 digit passcode. Wait for confirmation tone before replacing the handset. The telephone exchange will program the passcode for you on request. Please inform the telephone exchange whether you desire to lock only STD calls or local+STD calls.
- **Local / STD lock releasing** Dial 79 and then the same 4 digit passcode for releasing local/STD lock. Wait for confirmation tone before replacing the handset.
- **Voice Mail Service** Voice mail service can be activated to any extension by request. The detailed procedure may be obtained from telephone exchange.
- **Automatic Speech Recognition system** In the EPABX telephone exchange, an IVRS system called ASR (Automatic Speech Recognition) system has been interfaced to answer all incoming calls made to IIT Madras by dialing +91 44 2257 8000 or +91 44 2257 9000. The system will answer by asking the name of the faculty member or Department name to which the call is to be connected. When the caller tells the name of the faculty member correctly, after confirmation by the system, the call will be transferred to the respective office extension. If the name is not recognized, then the call will be transferred to the operator / exchange to be connected properly. If any problem is identified (e.g., the pronunciation of the name), kindly contact the telephone exchange complaints (extension: 8142 / 8141) to update the same in the ASR server.
- **Meet Me Conference** Several parties, both internal and external, can call in to this bridge conference facility to converse with each other. The facility will be provided on request to a faculty member by giving a passcode for the conference. Send email to telephones@iitm.ac.in with the date, time and duration of the teleconference as well as the number of participants at least one working day earlier. You will receive a confirmation and the passcode which you have to convey to all participants. The number to be called is always 9666 followed by the passcode.
